STANDUP POUCH MAKING SYSTEM

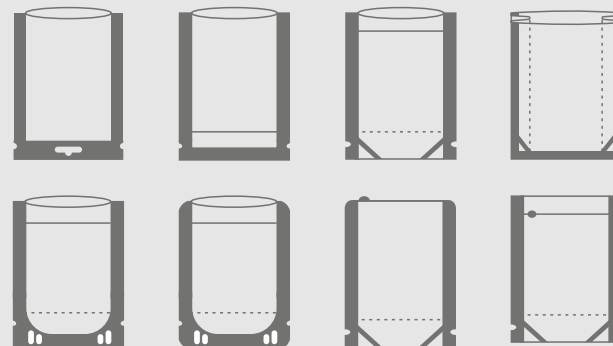

Full Servo

6 Servo

3 Servo

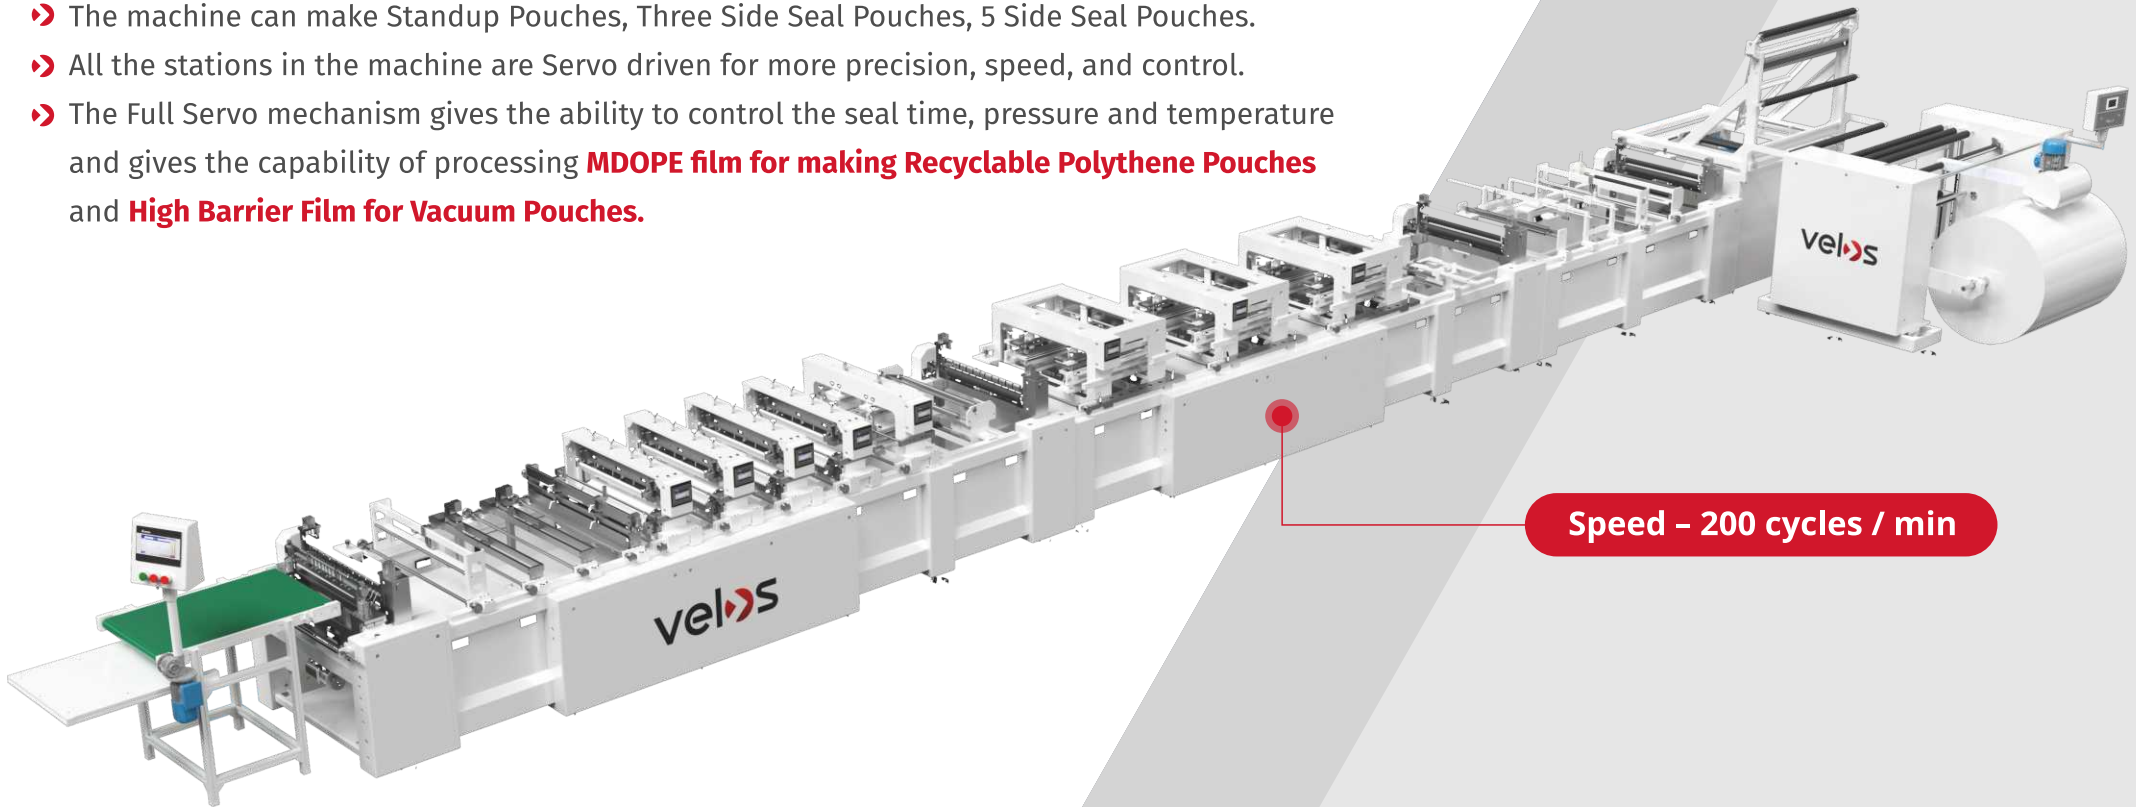

Type Of Bags

FULL SERVO STANDUP POUCH MACHINE

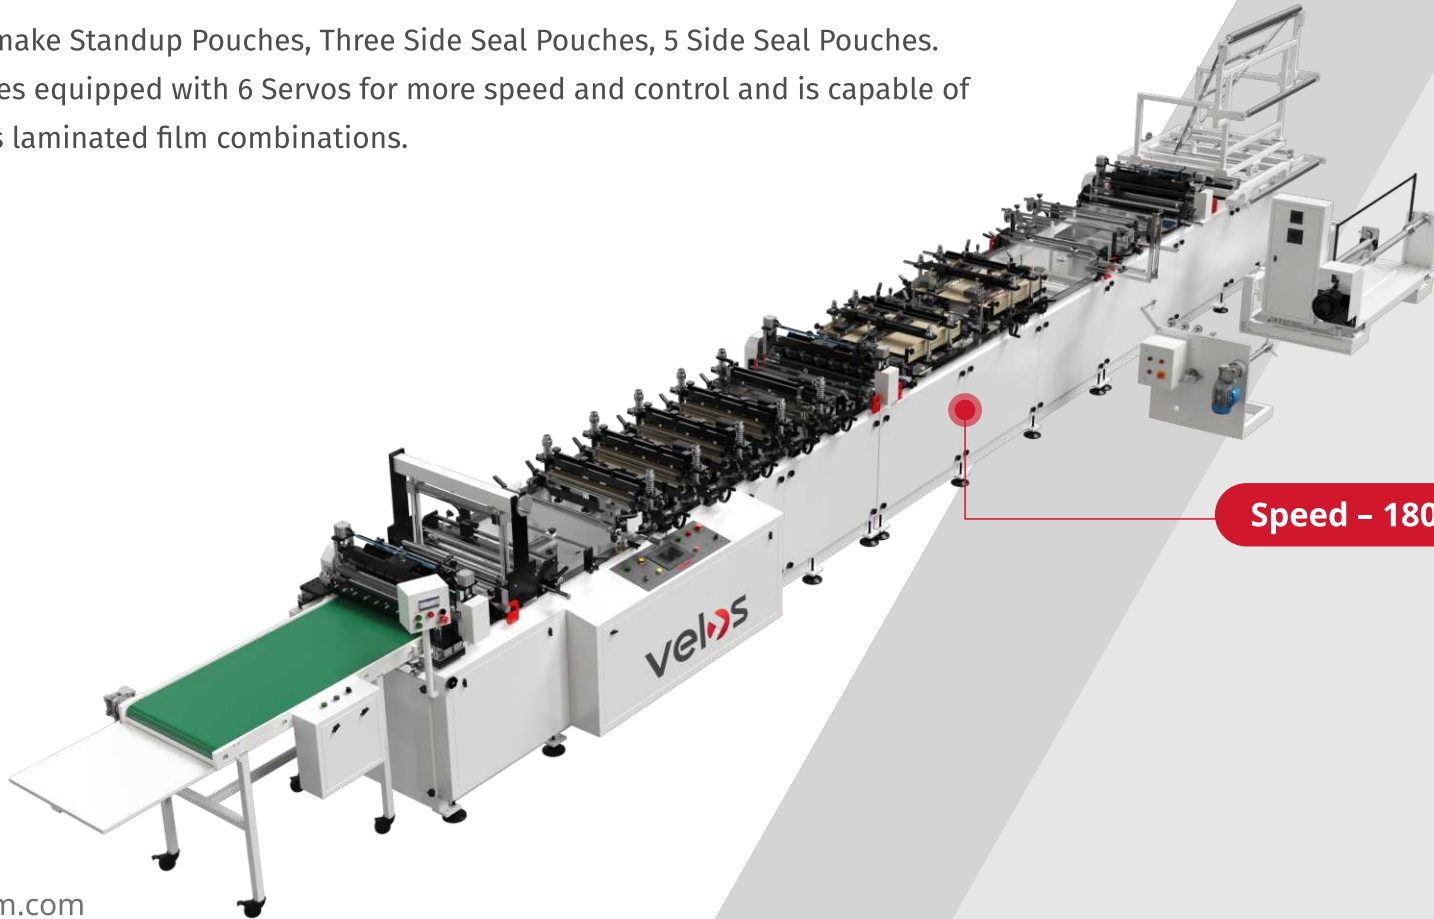

- The machine can make Standup Pouches, Three Side Seal Pouches, 5 Side Seal Pouches.
- All the stations in the machine are Servo driven for more precision, speed, and control.
- The Full Servo mechanism gives the ability to control the seal time, pressure and temperature and gives the capability of processing **MDOPE film for making Recyclable Polythene Pouches** and **High Barrier Film for Vacuum Pouches**.

SERVO CRANKING STANDUP POUCH MACHINE

- The machine can make Standup Pouches, Three Side Seal Pouches, 5 Side Seal Pouches.
- This machine comes equipped with 6 Servos for more speed and control and is capable of processing various laminated film combinations.

Speed - 180 cycles / min.

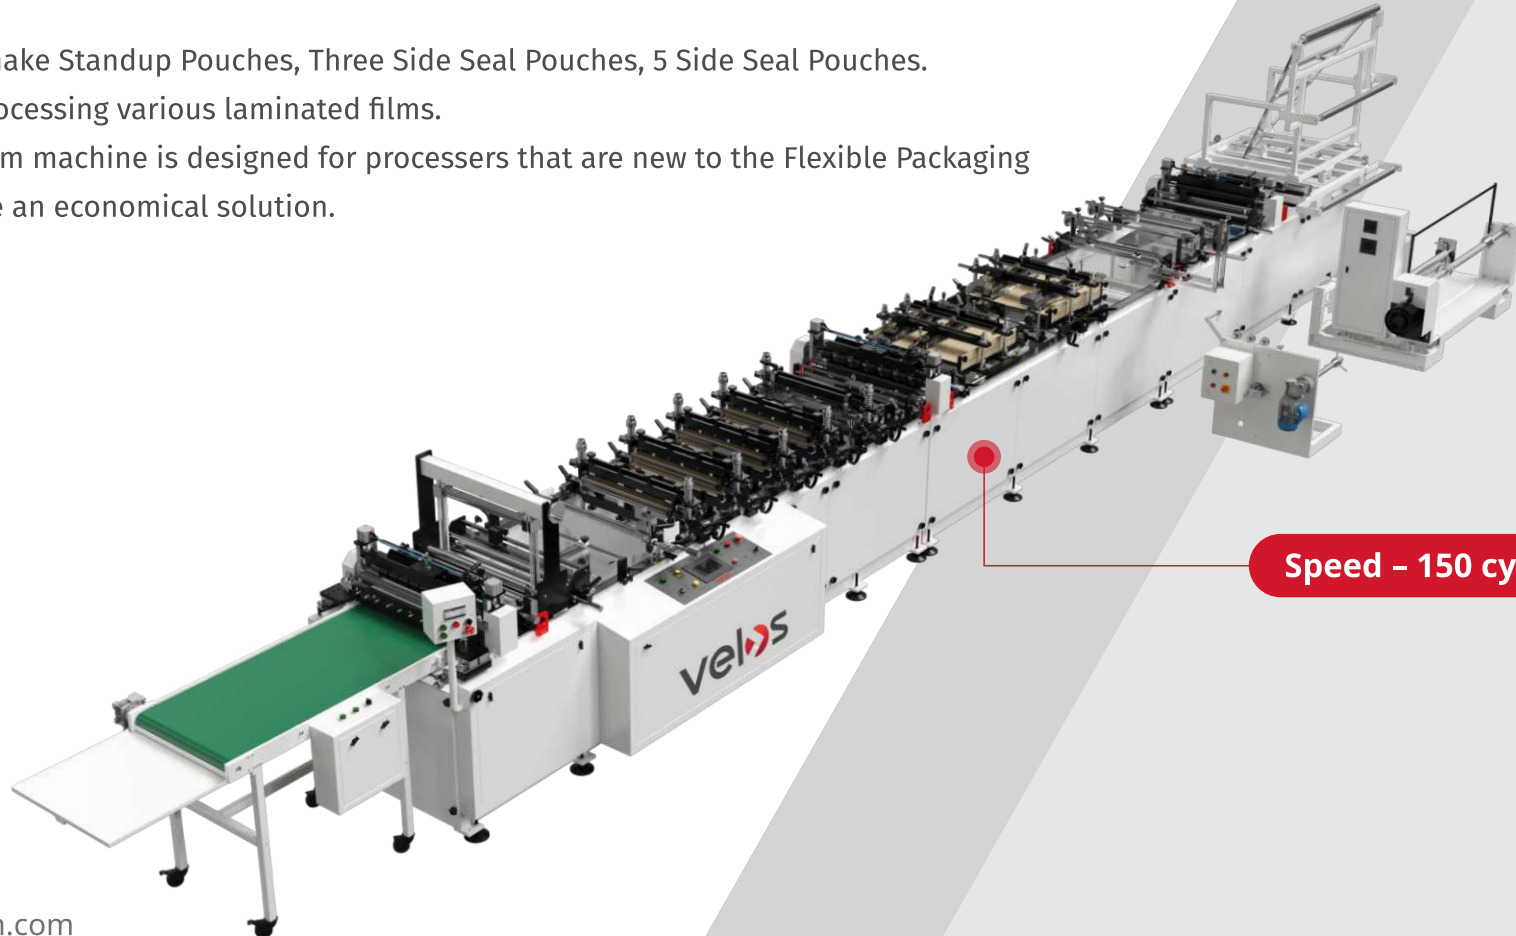

3 SERVO STANDUP

POUCH MACHINE – 600MM AND COMPACT 400MM

- The machine can make Standup Pouches, Three Side Seal Pouches, 5 Side Seal Pouches.
- It is efficient for processing various laminated films.
- The Compact 400mm machine is designed for processors that are new to the Flexible Packaging industry and desire an economical solution.

Speed - 150 cycles / min

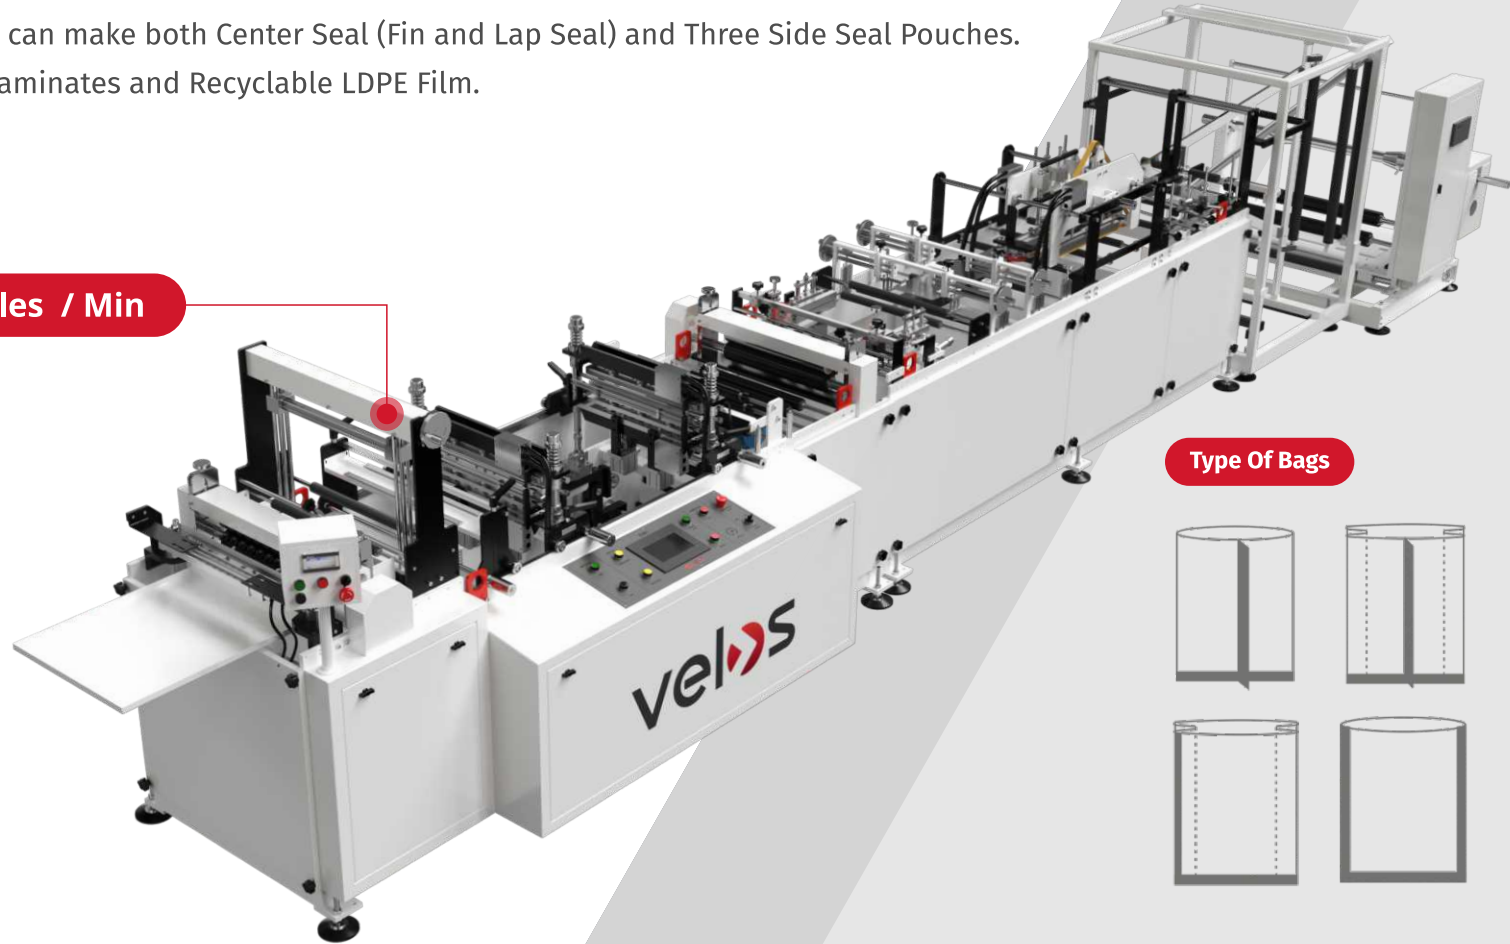

CENTER SEAL THREE SIDE SEAL MACHINE

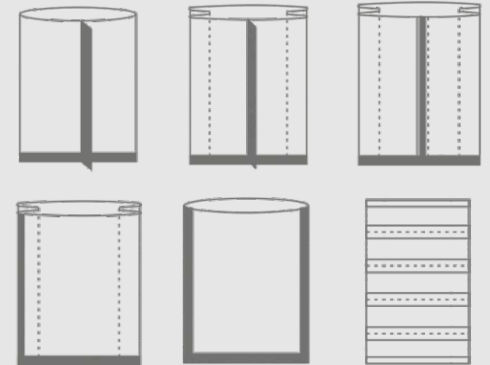

- This a Combi machine that can make both Center Seal (Fin and Lap Seal) and Three Side Seal Pouches.
- The machine can process laminates and Recyclable LDPE Film.

Speed - 200 cycles / Min

Type Of Bags

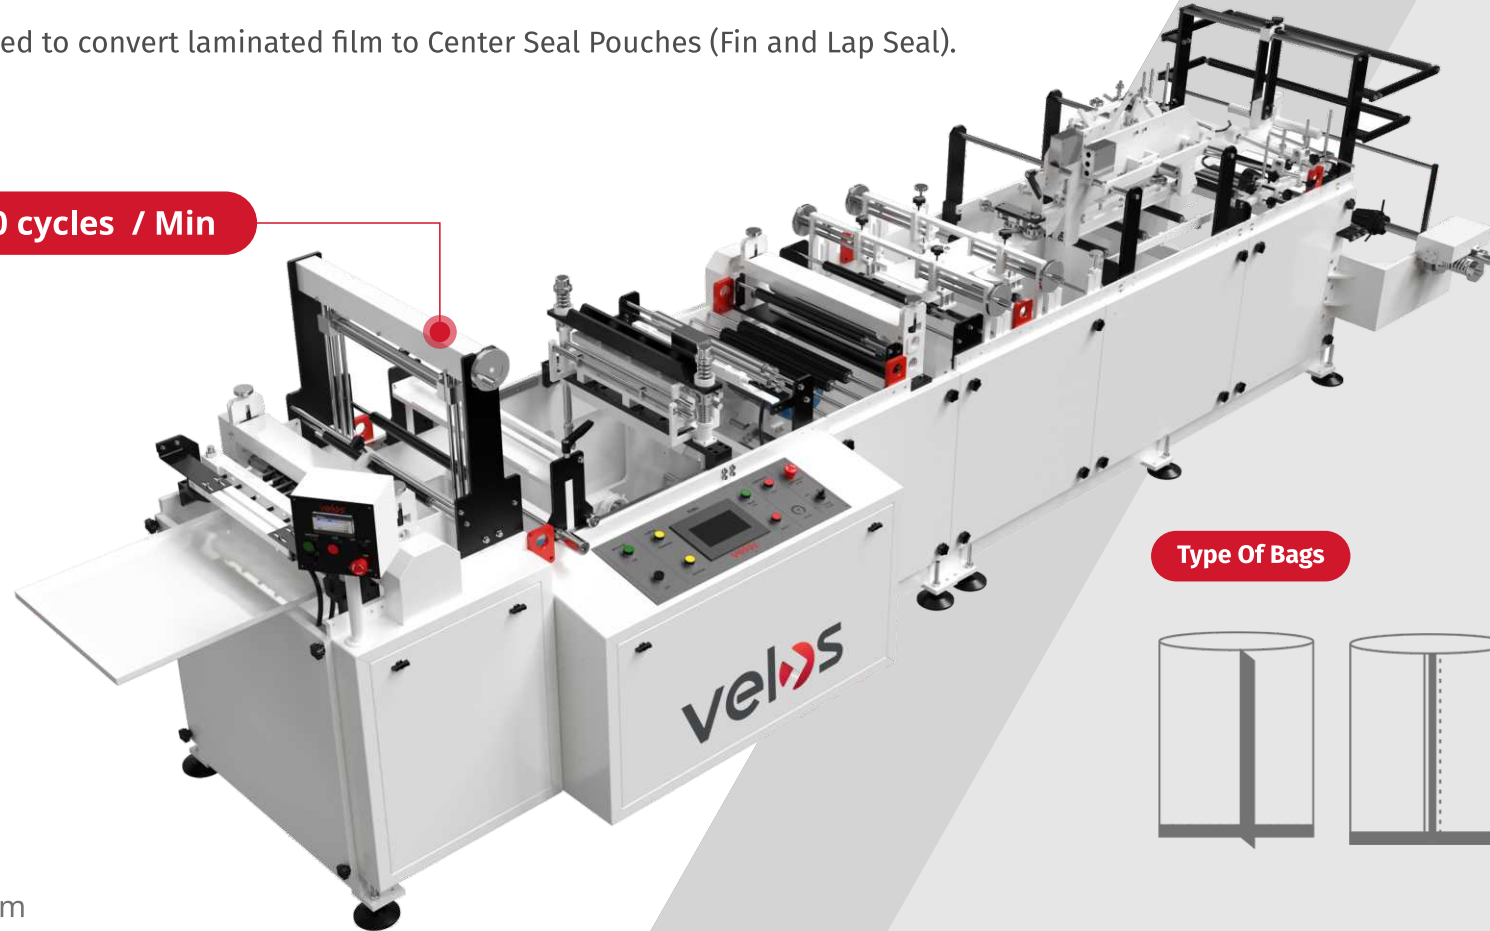

CENTER SEAL POUCH MACHINE

➤ This machine is designed to convert laminated film to Center Seal Pouches (Fin and Lap Seal).

Speed - 250 cycles / Min

Type Of Bags

BAG MAKING MACHINERY

▶ Wicketor Side Seal Machine

▶ Mailer Bag Machine

▶ Zipper Bag Machine

▶ Multipurpose Side Seal Machine

▶ High Speed Flying Knife

▶ Flying Knife Bottom Seal Machine

▶ Flying Knife with Spine Seal

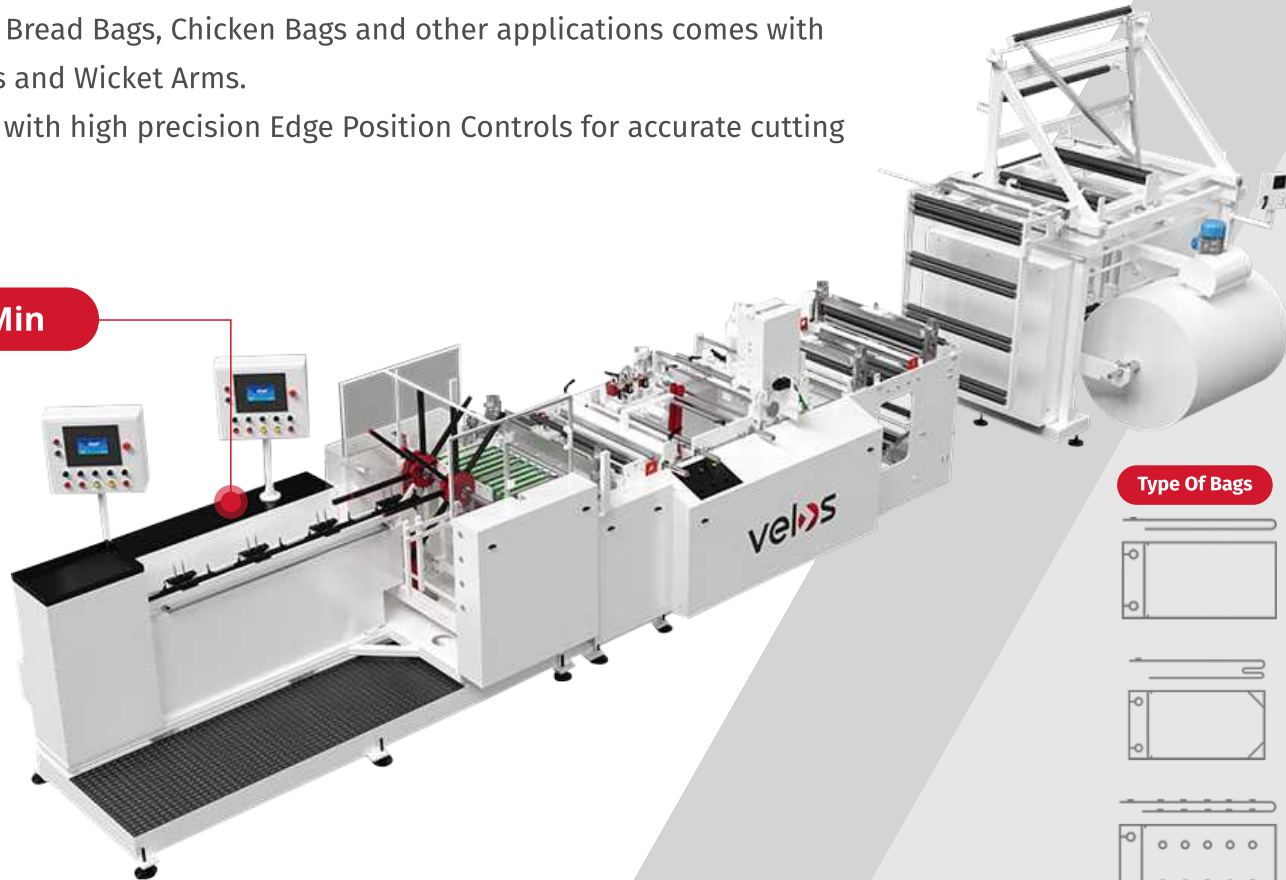

WICKETER SIDE SEAL MACHINE

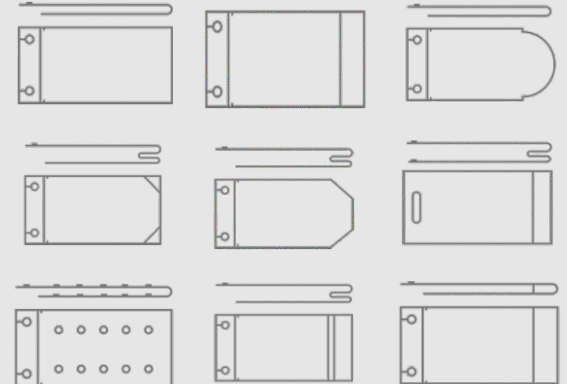

- Our Wicketer Machine for Bread Bags, Chicken Bags and other applications comes with Pearl Technology Punches and Wicket Arms.
- The machine is equipped with high precision Edge Position Controls for accurate cutting and sealing.

Speed: 300 cycles / Min

Type Of Bags

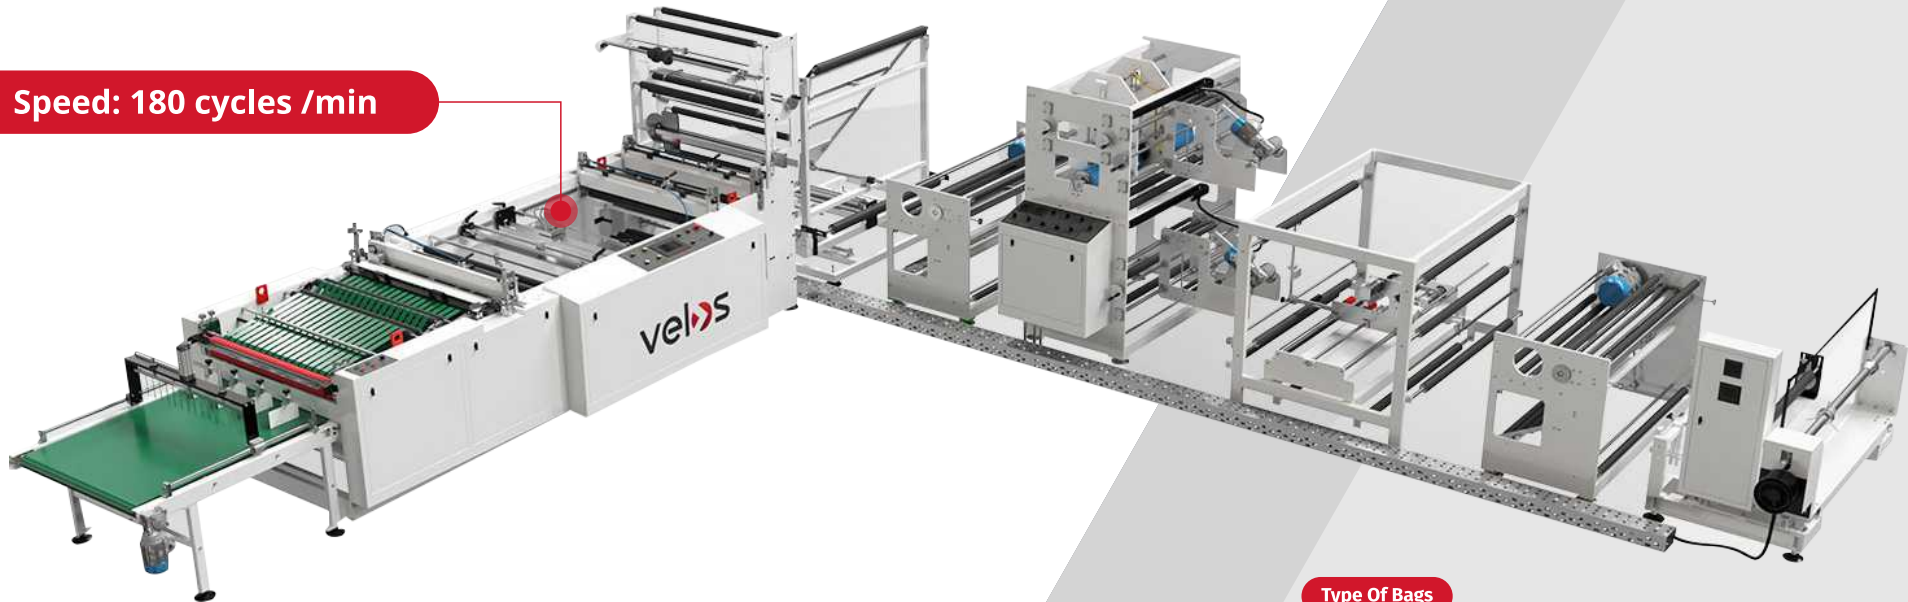

MAILER BAG MACHINE

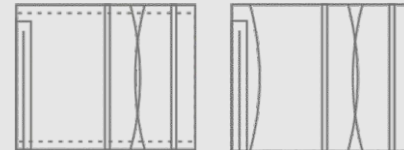

- This is a fully automatic machine for making bags for the E-commerce industry. The machine is equipped with an online POD Application system and Glue Unit for Tape.

Speed: 180 cycles /min

Type Of Bags

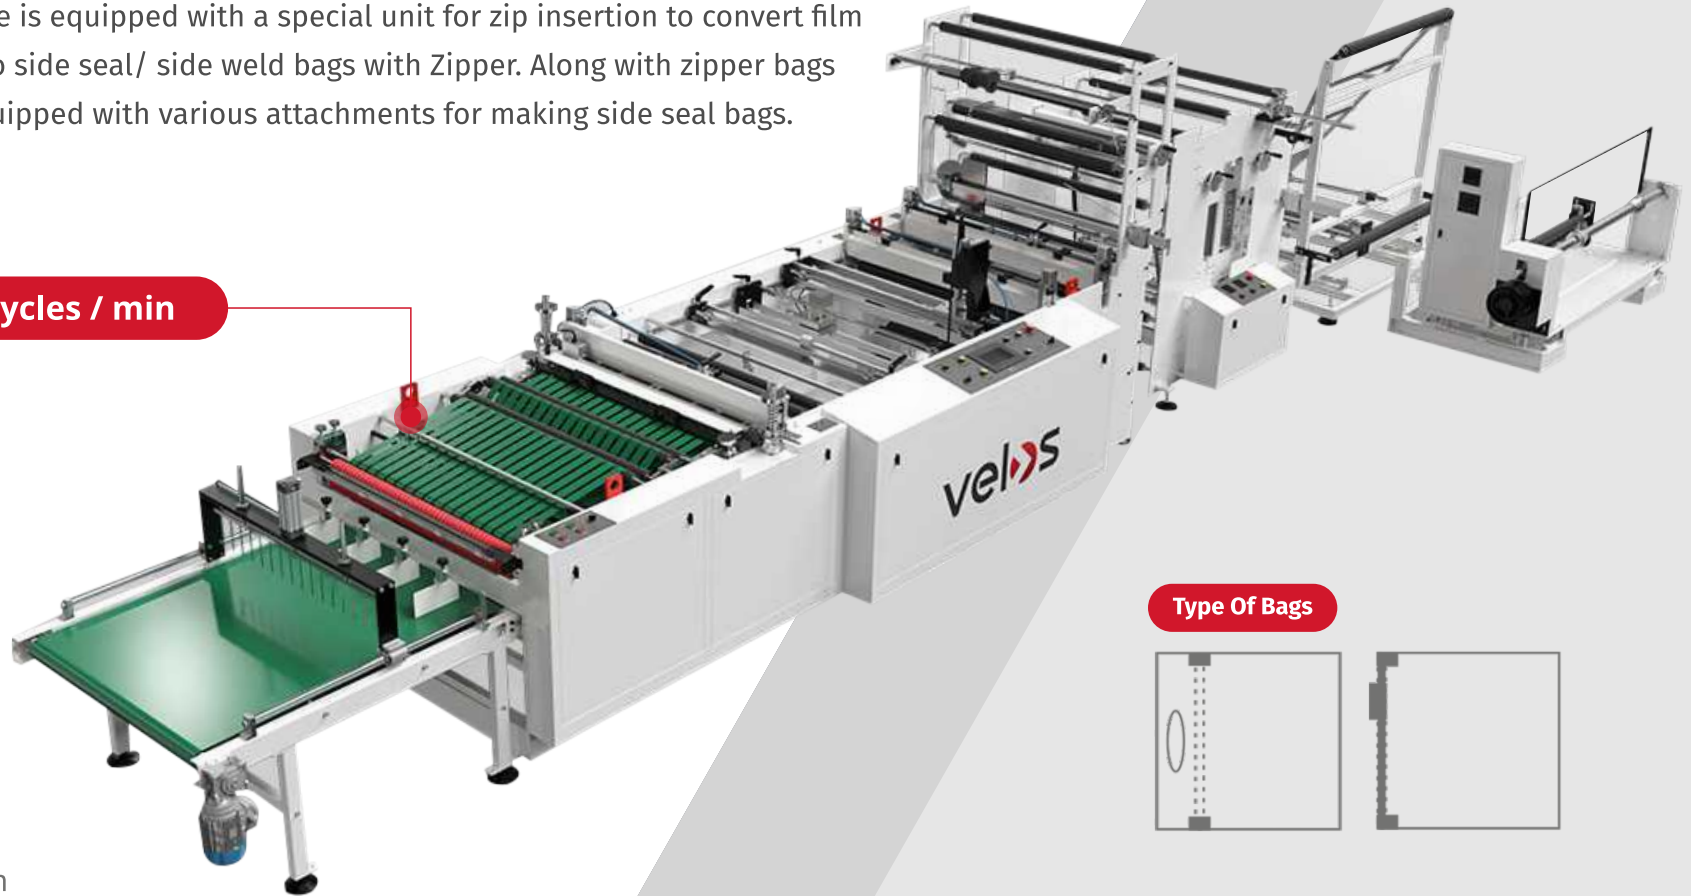

ZIPPER BAG MACHINE

- The bag making machine is equipped with a special unit for zip insertion to convert film of various materials into side seal/ side weld bags with Zipper. Along with zipper bags this machine can be equipped with various attachments for making side seal bags.

Speed: 150 cycles / min

Type Of Bags

MULTIPURPOSE SIDE SEAL

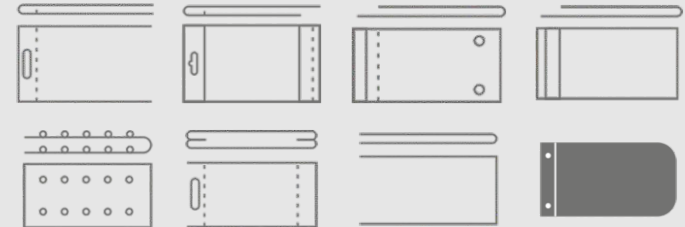

- This machine is high Versatile and can convert various jobs.
- Material: CPP, BOPP, LDPE, HDPE & **Bio-Degradable Films.**

Speed - 300 cycles / min

Type Of Bags

HIGH SPEED FLYING KNIFE MACHINE

- This machine is specially designed bottom Seal bag maker with Multiple Servo for achieving High Speed and accuracy.
- Materials that can run on the machine LDPE, HDPE

Speed – 150 cycles / min

Type Of Bags

FLYING KNIFE MACHINE

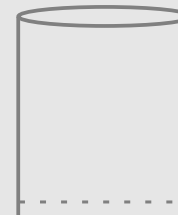

- This Flying Knife Bag Making Machine is a specialised Bottom Seal Machine/ Bottom Weld Machine which can make up to 3-meter-long bags and up to 1.5-meter-wide bags. The specialised sealing bar can handle up to 500 microns including gusset.

Speed - 80 cycles / min

Type Of Bags

FLYING KNIFE WITH SPINE SEAL

- This Flying Knife Bag Making Machine is a specialised Bottom Seal Machine/ Bottom Weld Machine which can make up to 3-meter-long bags and up to 1.5-meter-wide bags. The specialised sealing bar can handle up to 500 microns including gusset. The machine is equipped with a specialised Spine Seal attachment. The bags made on the machine are used for packing Pet Food, Rice, Grains and more.

Speed – 60 cycles / min

SPINE SEAL ATTACHMENT

Type Of Bags
